Bathroom furniture solutions that are as unique as you are.

Our large collection of beautifully crafted furniture designs means that, when it comes to choosing your perfect bathroom, you have all the choice in the world. The collections feature wall-hung options, a huge range of styles, several different colourways and different depth choices, as well as the opportunity to mix and match your accessories.

See page **40** for Skara furniture 

See page 44 for Dunbar furniture ^

Compliment a period home with bathroom spaces that take you back in time.

If your home is a listed building, an older cottage or has historical roots then it's often fitting to go with a more traditional looking bathroom, to match the rest of the house. We have many options available for smaller or larger period homes, all of which have an exceptional standard of quality.

SELKIRK

With its rounded edges, built in handles and low-profile design, our Selkirk range offers a sleek and contemporary modular design in a choice of four colour options.

You can then choose from a large selection of taps and mixers to create your own individual look. Craftsmanship is at the heart of our products, and also of its namesake, as the people of Selkirk are known as Souters, meaning cobblers.

LOMOND

See page **31** for Infill and Drawer Units ^

Lomond offers a modular storage solution, combining great versatility with style.

In a choice of standard depth, slim and L-shape slim options, it's the ideal choice for space-efficient designs and can help maximise those smaller spaces, such as en-suites or cloakroom bathrooms. With its sharp, angular lines, it creates a clean and modern look and comes in a choice of four colour options. Like the home of the loch it is named after, its design resonates calm and tranquillity, perfect for creating your own oasis.

See page **34** for One Piece Worktops v

3.0sqm	HM30	£255.00

W500mm

Key Features & Benefits

- 1 WiFi Control**
Adjust your home heating from anywhere on your smartphone's app (Valley tech & Smart Life)
- 2 Shared Access**
Your family and your colleagues could operate the thermostats if you share the thermostat to them.
- 3 Home Assistant**
Control the WiFi thermostat through the smart home assistant (Amazon Alexa & Google Assistant)
- 4 2.5 Inch Screen**
2.5 inch screen displays the room's current temperature, and the capacitive touch allow you to set it.
- 5 Easy To Use**
Menu-style operation interface, concise and clear. Comes with a function explanation interface, easy to understand and set.
- 6 Form A Group**
Group all HT-WiFi-W into groups to modify all room temperatures at the same time.

^ Control your underfloor heating using your phone

Luxury Vinyl Tile Flooring

LVT flooring is fast becoming a major trend in bathrooms and with our easy fit flooring you will be able to achieve that perfect finish in any room.

Longevity and performance guaranteed. The click system makes installation easy, and the completed floor is immediately ready to walk on. Our flooring isn't just hard wearing, it's easy to clean, antimicrobial, inhibits mould growth and is 100% waterproof. Giving you complete peace of mind. The 4-sided bevels of the planks emphasise the classic look and feel of a wooden floor.

^ Farmhouse Oak LVT Flooring

^ Alpine Oak LVT Flooring

Key Features & Benefits

1 Easy Fit

Quick and easy to fit thanks to the click locking system making the floor instantly ready to walk on once installed.

2 Sound Reduction

Impressive sound reduction of 21dB thanks to the built in IXPE acoustic foam underlay.

3 100% Waterproof

Completely impervious to water and won't soak up water like laminate MDF or timber-based flooring products.

4 Enduring

Deep embossed wear layer of 0.3mm to deal with the heaviest of foot traffic.

5 Anti-microbial Protection

Anti-microbial protection inhibits a wide range of bacterial and mould growth keeping you and your family safe. Plus they're easy to clean.

6 Lay Straight On Top

Can be laid on top of existing hard and level floor coverings saving time and installation cost.

7 Slip Resistant

High slip resistance to help prevent accidents.

Heated towel warmers and radiators can be a subtle and functional way of filling up extra warm space and accessorising your bathroom.

Heated towel warmers and radiators can be a subtle way of combining style with function. A vertical radiator brings a contemporary twist to even the most traditional bathroom style, whilst the vertical lines draw the eye upwards, to create the illusion of high ceilings. Look beyond chrome - an anthracite finish can accent marble effect tiles or consider slate grey colour palettes for an ultra-modern effect.

^ *Maree Towel Warmers, see page 80*

^ *See page 82 for Kelvin Towel Warmer*

^ See page **82** for *Lomond Vertical Radiator*

Vertical radiators and towel warmers can be used as a useful extra heat source in smaller, more compact spaces and if you're lacking in space you can always add one in above your bath as handy storage.

^ See page **81** for *Sanday Towel Warmers*

Reflect your own personal style and choose lighting solutions to suit your mood.

Our collection of mirrors and cabinets combine style with substance. Find all the features you need and more such as demisters, touch sensor lighting, charging sockets, Bluetooth speakers and even a colour changing light function which can be swapped and changed to match your mood! All of these options are also low energy and suitable for bathroom use, making them the ideal added extra to finish off your bathroom.

Relax in luxury and find your perfect bath solution.

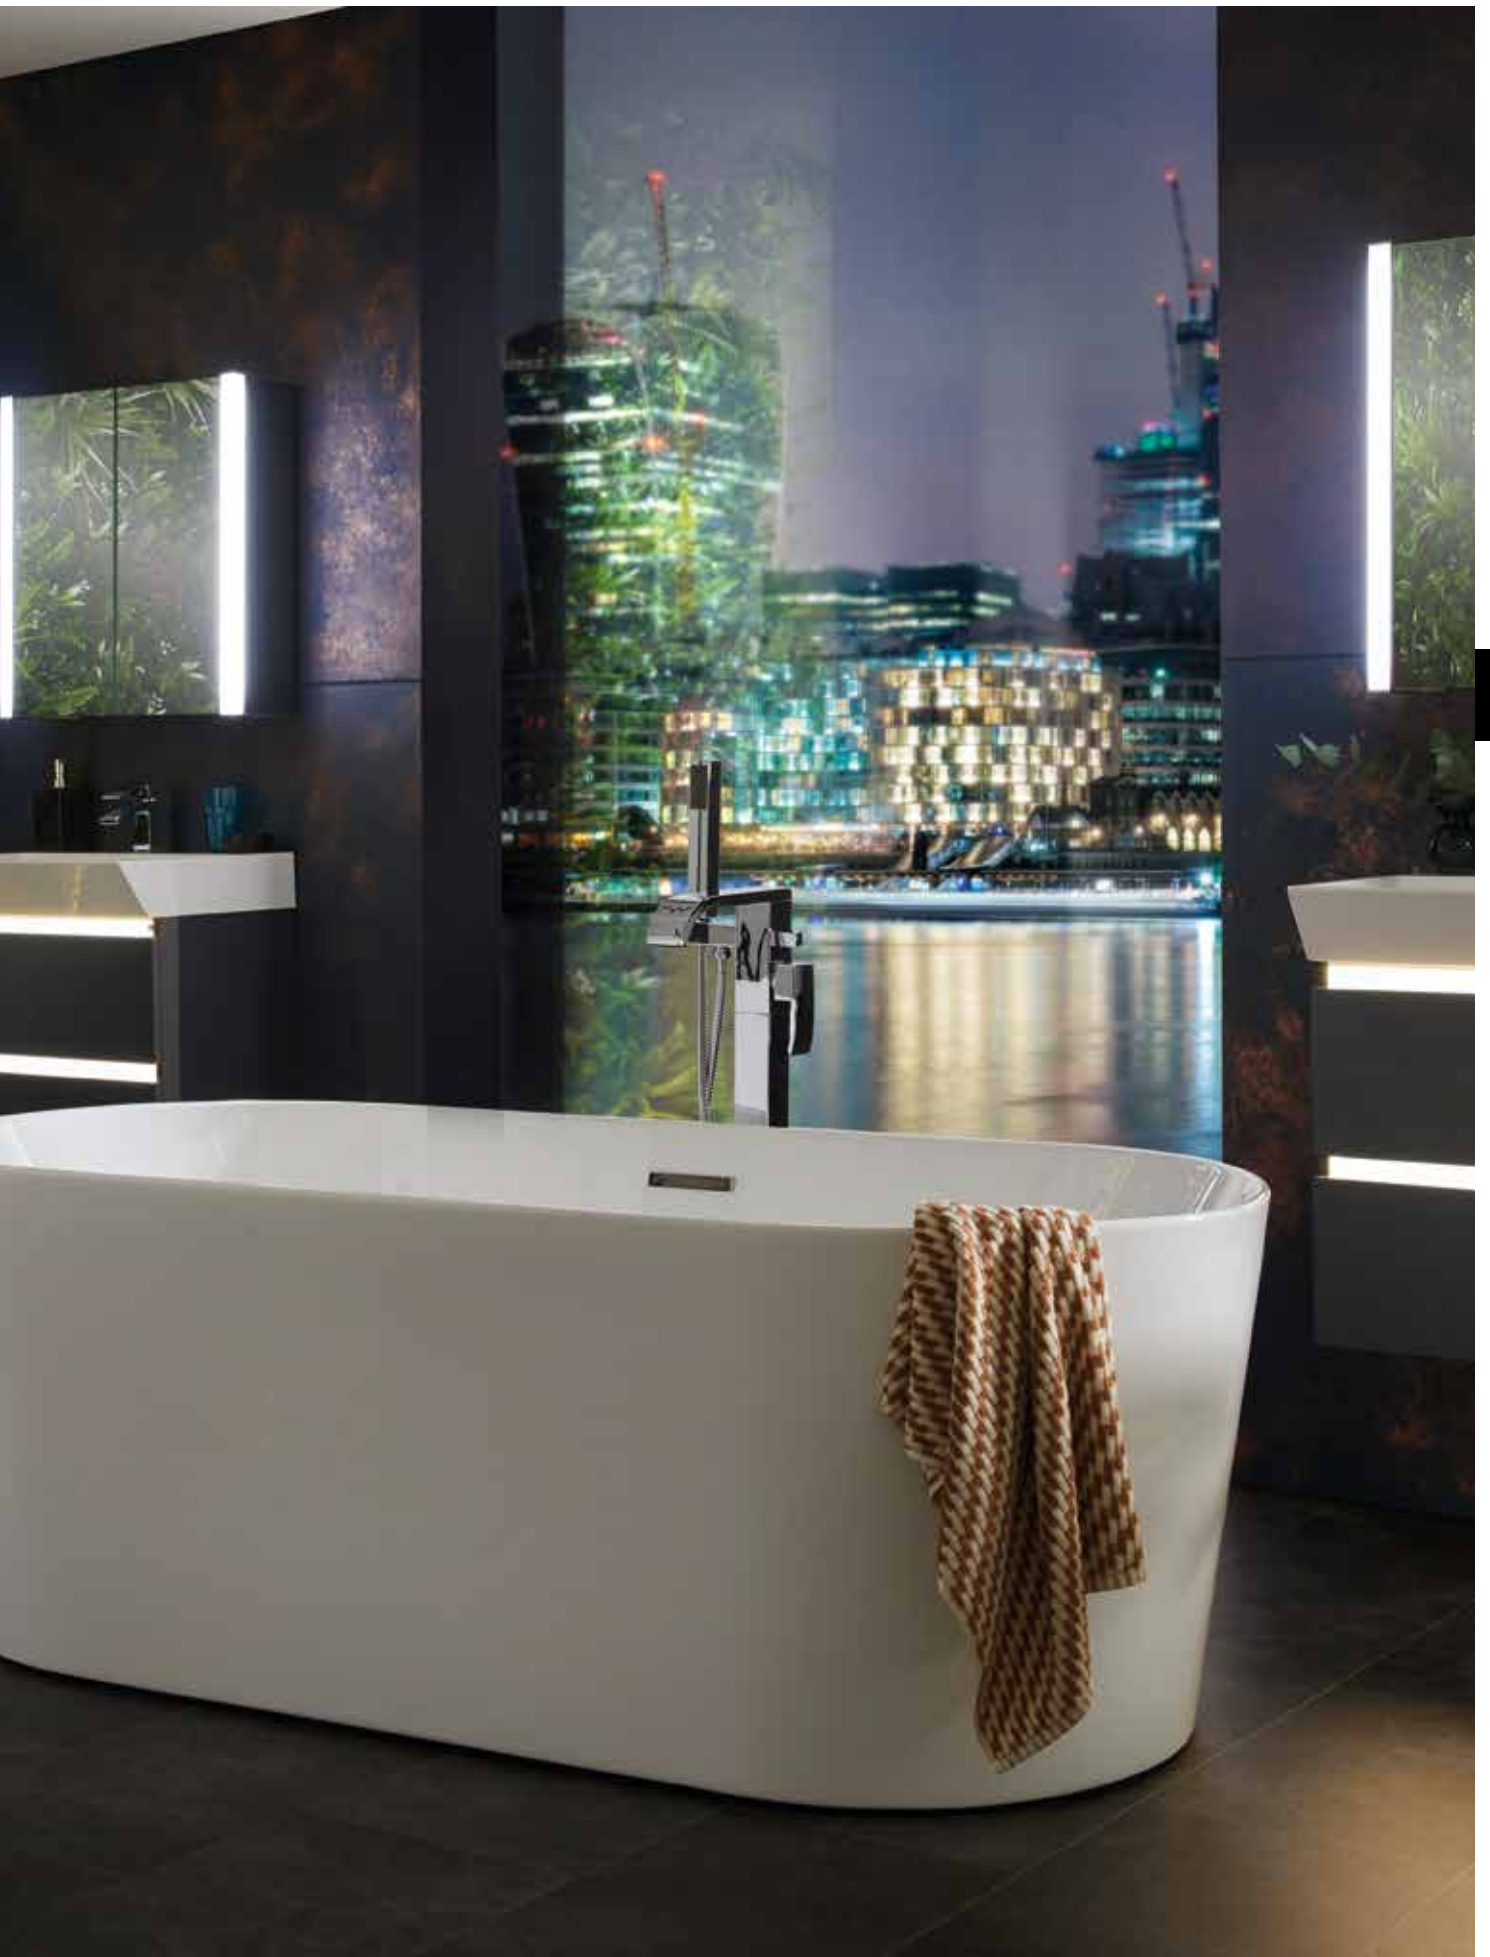

We have everything you need for your bath and shower requirements, from luxurious standalone baths to bath shower mixers. Design wise, there are many different baths to choose from, including L-shaped, oval, square and double ended. We also offer a beautiful range of freestanding baths and taps, to create a stunning centrepiece for your larger bathroom spaces. All are manufactured to the highest standards to ensure they look as good in years to come as when they were fitted.

^ See page **114** for Bath Screens

^ See pages **104** for Freestanding Baths

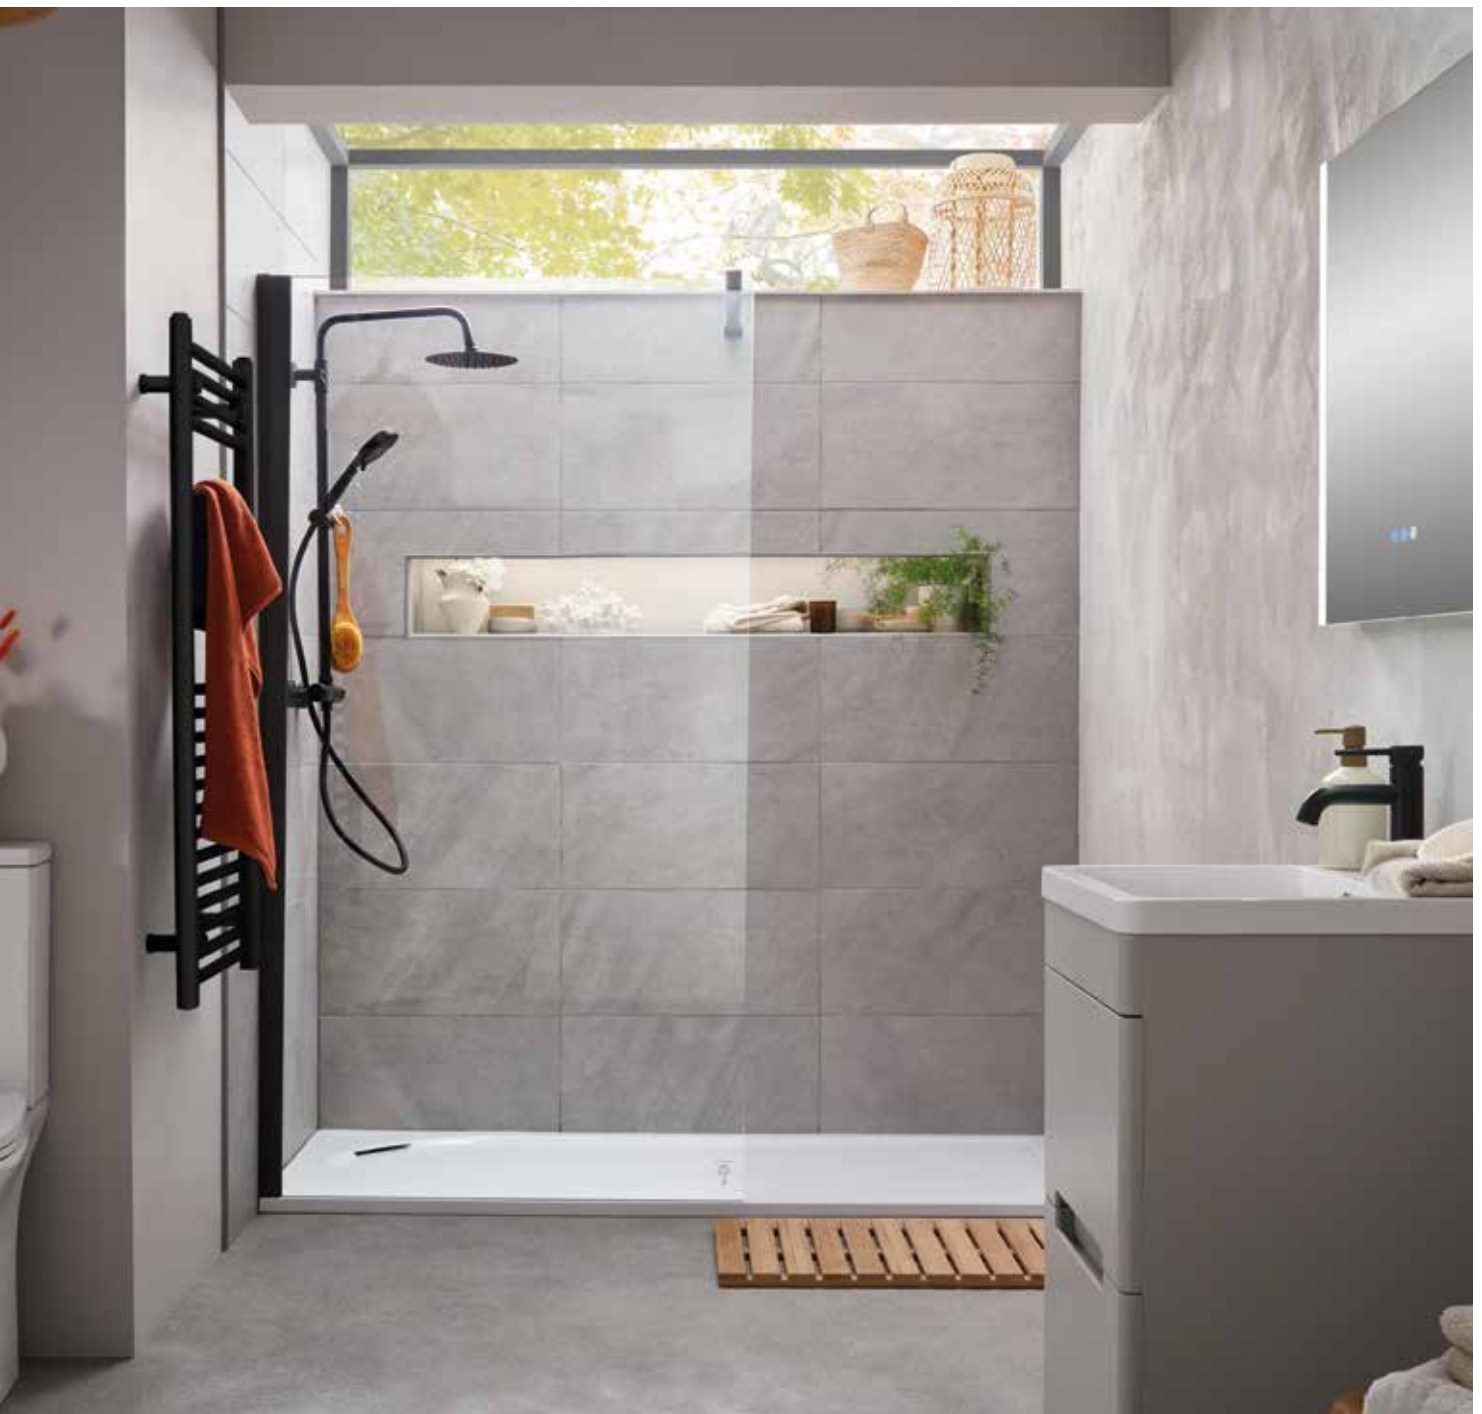

Wetroom VS Bath

A relaxing soak in the bath or a shower experience can really kick start your day.

Many people are considering whether they'd prefer a bath or a wetroom in their new compact or mid-size bathroom. Overall, it depends how much room you have to play around with. You'd also want to consider whether the space would be the only place you'd have for bathing or showering, along with how important having a bath would be for your lifestyle.

Indulging in a large 1700mm shower tray with a wetroom panel will look modern and chic – especially if you finish the look off with black taps and a rainfall showerhead. In contrast to this, if you decide you'd rather have both a bath and shower, you can opt for a shower over a bath and screen to save on your space.

SHOWER ENCLOSURES, WETROOMS & SHOWER TRAYS

Beautiful shower options to power your day.

Explore our luxury range of enclosures, designed to suit all bathroom sizes and designs. Whether you're after shower panels, quadrants or wetrooms, all our products are manufactured from toughened safety glass, with Armaclean technology that keeps it looking like new.

Cara 8mm Shower Enclosures - Design Features

1 Beauty is all in the details and our fully adjustable two piece cover caps.

Designed to fit perfectly to create a stylish and protective finish to all exposed enclosure frame and profile strip top edges.

2 Choose the handle best suited to your bathroom's overall design.

All enclosures are supplied complete with elegantly designed chrome internal and external handles with a strong rectangular cross-section complemented by softer curved ends. Or purchase our alternative handles with an all square styled finish to suit your taste.

3 Complement any enclosure or wetroom design with our stunning ultra-low profile Talla trays.

Only 30mm high and featuring a slip-resistant micro texture surface, hidden 90mm fast-flow waste and secure threaded legs and plinths.

See page 125

4 Our clever profile cover strip system combines stylish cover strips to hide all the fixing screws

Designed with an integrated corner post on all doors compatible with side panels.

6 Quick release rollers & cushion stops.

High quality double wheel rollers with smooth ball bearing action ensure a satisfyingly smooth gliding action on all sliding doors, coupled with cushion stops at full opening.

Stunning showers that combine functionality with style.

Choose from exposed or concealed thermostatically controlled showers to your preference. We have plenty of choice when it comes to selecting the perfect shower for you, with budgets and designs to suit a range of different spaces – no matter how big or small.

Douches

Choose from 3 stylish douches, all available in chrome, matt black and brushed brass finishes. See page 160

Exposed Showers

For exposed showers with a more luxury experience, we recommend choosing one of our Premium Showers on page 132 with their larger cool touch valves, designer heads and handsets and full-bore hoses for maximum flow to get the best possible showering experience.

Concealed Showers

For concealed valves we curate the most popular sets for ease but also offer you the option to mix and match your shower by choosing your valve, backplate, handles, showerhead and any other accessories, to create the ideal combination.

Premium Twin Outlet Showers

The difference is in the details of our Premium Showers

Larger cool touch shower valves with recessed safety button on the round valves

Full bore hoses for maximum possible water flow

Matching designer rainfall heads and handsets

Beautiful statement taps to draw attention to your space.

Whether you're looking for a statement contemporary look or a simple yet stylish accent, our collection of taps and mixers is sure to inspire you. From industrial styles to floor-standing taps and shower heads, we can guarantee that quality is always at the forefront of all our designs.

^ See page **176** for Dundas Taps

“For a trendy, edgy look, we’d recommend opting for black taps to finish off your bathroom – especially if your general colour scheme is lighter, as black looks super striking against white or grey.”

^ See page **172** for Rona Taps

Brushed brass taps are the very latest trend and can really help bring natural wood and stone colours to life in your bathroom.

Lifetime Warranty

We are proud to offer you a Lifetime Warranty on the entire range of Highlife products - so you can buy with confidence and enjoy them at leisure.

What our Warranty covers

Our Lifetime Warranty covers faults due to manufacture of any Highlife product purchased by you against material defects for the lifetime of the product. At our discretion, we will replace, in part or whole, any product which is covered by our warranty. If a replacement Highlife product is offered by us, but identical goods are no longer available, then we reserve the right to replace the Highlife product with the nearest equivalent. All electrical items limited to a one year warranty

Furniture installation and care

We want you to enjoy long and trouble free use of your Highlife bathroom furniture. All timber products are prone to adverse effects caused by standing water or excessive moisture. Any spillages or splashes must be dried off immediately and we strongly recommend installing adequate extractor fans. A good quality silicone sealant or varnish is required on any cut or exposed surface as well as a silicone seal between basin and unit, at worktop joints, around bath and plinth edges. Please consider carefully the fitting position of furniture in small shower rooms to ensure water from the shower cannot reach the furniture. If in doubt always consult a bathroom design specialist.

What our Warranty doesn't cover

Our warranty does not cover defects arising in respect of:

- Fair wear and tear
- Misuse or abuse
- Non-consumer use
- Failure to install or utilise the Highlife product in accordance with any written instructions, good plumbing practice or legislation
- Damage to wood furniture caused by standing water or inadequate room ventilation
- Electrical failure
- Moving parts or parts which are likely to perish or wear over time and normal usage (such as rubber seals, ceramic disc valves, mixer cartridges and thermostatic valves)
- Parts which do not form part of the material structure of the Highlife product
- Component failure deemed by Highlife to be due to hard or aggressive water supplies

Labour and other costs incurred by you (including direct and indirect losses) will not be covered by us. Our warranty is non-transferable and only applies to the purchaser or original end-user of the Highlife product and must be supported by an original purchase receipt.

How To Claim Under Our Warranty

For products under 1 year old you must first contact your place of purchase. If they deem the fault to be covered under warranty, they will contact us with a view to supplying the necessary replacement part/parts.

For products more than 1 year old please contact us direct with proof of purchase. We will endeavour to supply the replacement part/parts required, subject to exclusions. E&OE.

The lifetime warranty is only applicable in the UK and ROI and is subject to certain terms and conditions which do not affect your statutory rights.

Note: Shower Valve Operating Pressures - recommended pressure requirement is 0.5 Bar (unless otherwise stated).

Gravity Fed Systems / Pumps – If you live in a property with a gravity fed system you will likely need to install a negative or universal pump to achieve the 0.5 Bar pressure required for shower valves. Please seek advice from a qualified engineer or pump manufacturer. NB. Positive pumps will not work.

Bathroom Taps and Mixers Operating Pressures - minimum operating pressure is 0.2 Bar. Recommended pressure is 0.5 Bar (unless otherwise stated).
